

Barbara Ball joined Caregiver Support Network in July of 2014. She moved from Arizona to escape the heat and for the beauty that only Utah can offer. She has 3 ½ years of healthcare expertise with her specialty in hospice. Currently she is working towards her degree in Psychology, loves to go hiking and can't wait for snow season to break out the ski's again. After 23 years in outside sales I decided I wanted to give back and help those in need, especially the elderly and our Veterans.

Caregiver Support Network Home Health & Hospice (CSN) is a full-service, clinician and **woman-owned** Medicare and Medicaid certified Home Health and Hospice Agency and licensed Personal Care agency providing services in Salt Lake, Davis, Weber, Morgan, Cache and Box Elder Counties in Utah and Franklin County in Idaho.

Founded in 1999, we provide private duty care services and therapeutic activity for people with Alzheimer's disease and other dementia, while at the same time focusing on supporting and educating their family caregivers to improve quality of life for both. In 2009, CSN launched the non-profit Caregiver Support Network Foundation to support caregivers of seniors and terminally ill individuals in need and has donated over \$100,000 since its inception.

Caregiver Support Network Home Health and Hospice espouses a four-fold mission:

- 1) Enhance quality of life for our clients and families through specialized, compassionate care;
- 2) Support family members with services that decrease caregiver stress;
- 3) Advocate for our clients and families through professional care management; and finally,
- 4) Serve as an exemplary employer and corporate citizen. In addition to Dementia Care, other specialty programs include:

- Allen Cognitive Level Screening
- Balance and Dizziness (BPPV) Treatment
- Hearth Failure Program
- COPD Program
- Infra-red Light Therapy
- Chronic Disease Management.

Caregiver Support Network is objectively ranked as one of the top agencies for its excellence in patient care outcomes both locally and nationally. Caregiver Support Network is the only home health agency in Utah that has qualified for the Health Insight Quality Award every year it has been offered. 2013 marked the eighth consecutive year.

CSN has won the Best of State award every year since 2008. 2008 for Health Care Facilities; 2009 for Health Care Services; 2010, 2011 and 2012 for Hospice; 2013 and 2014 for Nursing.

CSN has been recognized for its commitment and dedication to providing quality care to our veterans and received the "We Honor Veterans Partner Level One" from the National Hospice and Palliative Care Organization.

You can reach Barbara at 801-440-0755 or call the office direct at 801-547-0060.
